

SOLONS DOUBLE UP THEIR SALARIES

Resolution For an Increase
To \$1,000 Has Passed
The Senate.

PASS SIDE PATH BILL

Primary Election Tomorrow—
Osteopathy Bill Passed—Wo-
man Factory Inspector.

ROCK COUNTY ONE DISTRICT

Madison, Wis., May 1.—The resolu-
tion doubling the salaries of mem-
bers of the legislature by giving
them \$1,000 a session, and mileage,
passed the senate today 18 to 13.

The primary bill made a special or-
der for this evening was ordered on
tomorrow's calendar, as there will be
no session of the senate tonight, the
senators being in attendance at Sena-
tor Fearn's funeral at Coloma.

A bill was introduced by the senate
affairs committee reducing the num-
ber of state employees on the line re-
commended by Governor La Follette
in his message.

The attempt to revive the barbers'
license bill killed last week in the
senate failed 13 to 11.

The bicycle side-path bill was con-
sidered in without discussion.

The amended osteopathy bill also
went through the senate without de-
bate.

The bill providing for a woman fac-
tory inspector was passed by a big
majority.

The bill apportioning the state in
separate districts adopted by the com-
mittee last evening was introduced in
both houses.

ROCK COUNTY ONE DISTRICT.

Fight on the Senatorial Apportion-
ment Ended Last Night.

Madison, Wis., May 1.—The fight
on the senatorial apportionment en-
ded in the committee last night and
Senator Jones and Senator Whitehead
have their districts to their liking in
spite of the strong efforts that was
made to disturb them. The bill has
been agreed upon and every effort will
be made to hasten its passage.

But there is some doubt as to
whether it will result in an adjourn-
ment on May 11. With the interrup-
tion of the work of the legislature by
the death of Senator Fearn and with
the issue on several matters in doubt,
an adjournment on that date still
appears out of the question.

Rock a District by Itself.

The fight in the committee was to
throw Waukesha and Walworth to-
gether, but that, failed and Washing-
ton and Waukesha will again consti-
tute the Thirty-third district. Rock
county will be a district by itself, Je-
ferson county having been thrown in
with Walworth county. The plan was
to keep Rock from becoming a dis-
trict by itself.

The apportionment as agreed upon
by the committee is reliable for the
fact that it preserves all the county
lines. It is said to be first senatorial
apportionment ever made in which
county lines were not broken.

Members Becoming Anxious.

It is going to be difficult to hold the
members for the balance of the ses-
sion. The growing grass and the
budding trees make the farmers ner-
vous. They want to get home to
their crops and some of them are go-
ing. This morning there were some-
thing like thirty absentees. After a
while a roll call will be dangerous
because it will be likely to disclose
the lack of a quorum. If any ap-
propriation bills go over until the last
few days of the session it will be hard
to pass them because it requires a
majority of three-fifths of the whole
number of members to pass such a
bill.

MEMPHIS GREETES THE PRESIDENT CITY WAS GAILY DECORATED

McKinley Flakes a Speech to a Vast Crowd and Then
Visits the Old Battlefields—Clever Scheme
of Mrs. Margaret Hammond.

Vicksburg, Miss., May 1.—The presi-
dential special train arrived here at
eight thirty this morning from Mem-
phis and was met by a tremendous
crowd of people. A stop of an hour
and a half was made.

The city was gaily decorated with
flags and bunting. A huge arch made
of twenty-five bales of cotton was
erected at Crawford and Walnut Sts.
through which the party was driven
on the way to the court house where
the president made a speech.

A drive was then taken through
the national cemetery and old battle-
fields all abloom with roses.

OLD MAN ACCUSED OF MURDER

Dr. J. L. Gartrell, 70 Years of Age, in
Custody at Kansas City.

Kansas City, Mo., May 1.—Dr. J. L.
Gartrell, 70 years old, and his son, W.
P. Gartrell, were arrested yesterday,
and are held at police headquarters
pending investigation of the murder
of D. E. Donegan, a Colorado mining
man, whose body has been found in
Mulberry creek, between Amorett and
Nihart, Mo.

Donegan left Victor, Col., for Kan-
sas City on March 15, having \$800. In
this city he bought a team of horses
and a wagon and started to drive to
Oklahoma. With Donegan when he
bought the team and when he drove
out of town were the two Gartrells, the
police say.

The body of Donegan, wrapped in
oilcloth, was found yesterday in the
deep waters of Mulberry creek, between
Nihart and Amorett. The body had
been in the water two or three weeks,
but was fully identified. The Gartrells
were arrested last night.

Awaiting Execution 9 Years.

Washington, D. C., May 1.—In the
United States Supreme Court yester-
day County Attorney Fulton of King
county, Washington, moved either to
dismiss or to affirm judgment in the
case of Charles W. Nordstrom, who is
under sentence of death and appealed
to this court. The motion was opposed
by ex-Congressman J. Hamilton Lewis.
The case is a celebrated one. It has
been before this court on three differ-
ent occasions, and the first judgment
against Nordstrom has been held up
for nine years. The court took the
case under advisement.

HONOR THE REMAINS OF SENATOR FEARN

State Officials and Members of the Leg-
islature Attend the Funeral at
Coloma Today.

Madison, Wis., May 1.—A special
train carrying the most of the state
officials and members of the legisla-
ture to attend the funeral of Senator
Fearn left for Coloma at 12:30 p.
m. The services will take place at
3 o'clock and they will return this
evening.

The chaplain in charge of the ser-
vices will be Assemblyman Charles
Barker, a former minister and close
friend of the deceased. The Masonic
service will be delivered by President
Pro Tempore McGillivray while the
honorary pall bearers will be Sena-
tors Jones, Munson, Willy, Martin,
Assemblymen Johnston, Eager, Spratt
and Whitson. The grand marshal will
be Senator O'Neil and the honorary
committees will be Senators Riordan,
Kreutzer, Morse, Mills and Stebbins,
and Assemblymen Evans, Henry, Bar-
ker, Steiger and E. W. Evans. Sena-
tor Miller will be in charge of the
floral committee.

Wisconsin 5; Minnesota 4.

Madison, Wis., May 1.—A magnifi-
cent sport in the eight inning gave
the Badgers a victory over Minnesota
yesterday afternoon by a score of 5 to
4. The visitors gained a good lead
in the first few innings and seemed to
have everything their own way until
the eighth when they went to pieces,
allowing the locals to score four
runs.

Grew of Knowles Is Saved.

New York, May 1.—The Panama
railroad steamship company's steam-
er City of Washington, which arrived
here today from Colon, had on board
the crew of the eight men of the
schooner Emma C. Knowles, which
was discovered off Barnegat one day
last week on her beam ends and
abandoned.

Widener Is Much Improved.

Philadelphia, Pa., May 1.—Joseph
E. Widener, who was dangerously in-
jured Saturday by the overturning of
a trolley coach, is reported by the
physicians at the Hahnemann hospital
to be much improved. While his con-
dition may still be regarded as criti-
cal, the chances for his recovery are
good.

PAN-AMERICAN IS OPEN AT BUFFALO

Clatter of Hammer, Saw
and Work Carts is
Still Heard.

GREAT CROWD ATTENDS

Opening Program Comprised
Some Informal Exercises at
Government Building.

THE FORMAL OPENING MAY 20

Buffalo, N. Y., May 1.—The gates
of the Pan-American exposition were
thrown open to the public at eight
o'clock this morning. The initial
day of the six months' term of the
big show was ushered in amid the
banging of hammers, shrieking of
saws and the rattling work of carts,
but there was much to interest the
throngs in attendance.

The program arranged comprised
some informal exercises at the gov-
ernment buildings at noon, a salute
of forty-five aerial bombs and general
unfurling of flags at two p. m., and
band concerts this afternoon and eve-
ning.

All of the exhibit buildings are
open and a few places on Midway
are open for business.

Everything is expected to be ready
by May 20 when a formal dedication
will be held.

GRAU'S FAREWELL TO GOTHAM.

Last Operatic Performance Like a
Foreign Festival.

New York, May 1.—What with the
heat, the enormous audience, the big-
gest of the season, the length of the
program, the \$18,000 in the box office,
the Metropolitan opera house last
night seemed like some foreign festi-
val playhouse dumped in the middle
of Manhattan. In consonance with
the custom of preceding seasons, the
Maurice Grau Opera company gave a
farewell performance. Additional in-
terest was created by the presence of
Sarah Bernhardt and M. Coquelin in
a comedy. These two distinguished
artists also made their adieus to A-
merica—until the next time.

Those who were on hand before
eight o'clock saw the marriage scene,
act III, scene 1, of Gounod's "Romeo
and Juliette," saw little Thomas Sa-
gnac as Romeo and Suzanne Adams as
Juliette.

Then followed the second act of
"Tristram and Isolde," with the cast
consisting of Jean de Reszke, Ed-
ouard de Reszke, Schumann-Heink,
Bertram, Muhlmann, and Lillian Nor-
dica.

PLAN TO REMODEL ALL SOULS' CHURCH

Dr. Woods Will Convert Building Into
Modern Flats—It Will Con-
tain Three Flats.

The All Souls' church recently pur-
chased by Dr. E. F. Woods, will be
transformed into a modern flat build-
ing. Morris & Evans, architects are
at work on the plans which will be
completed in a day or two.

Active work on the building will be
begin early next week, F. Hurd, be-
ing the contractor whom Dr. Woods
has engaged. The old church will not
be torn down. The building has been
examined by masons and the walls
have been pronounced perfectly
sound. The old roof will be taken
off and the side walls extended up
and a fancy gable roof will be put on.
Large bow windows will also be used
whenever possible to break up the
straight outlines which character-
ized the church.

The building will contain three flats
and Dr. Woods' office suite will be
in the basement. This suite will in-
clude a waiting room, private room,
operating room and drug room.

Dr. and Mrs. Woods will have their
home in a suite of rooms on the first
floor, occupying the west half of the
building. There will be another flat
of six rooms on the same floor on the
east side. The entire upper floor
will be occupied by one large flat of
ten rooms which has already been
rented by Mrs. Harrington who oc-
cupies the upper flat in the home
now occupied by Dr. Woods.

The flat will be modern in every
respect and the architects have in-
structions to make the exterior as
attractive as possible. The build-
ing will make one of the largest set
of flats in the city, its dimensions
being 38 by 80 feet.

Liner New York Arrives.

New York, May 1.—The American
line steamer New York, which sailed
from Southampton April 20, reached
her pier here today after a very slow
passage.

BEAUMONT WILD OVER COAL OIL

Vivid Description of Excit-
ing Scenes on Streets
of Texas Town.

OIL FIELD EXCITEMENT

James C. Wilmarth is on the
Ground, and Writes of
What He Sees.

TOWN PACKED WITH PEOPLE

Beaumont, Texas, April 25.—The
sight in Beaumont these days is not
the wells—it is the crowd and the de-
vices this crowd has made necessary.
Business is done heretoday in such
a way as the country never before
saw. No Cripple Creek strike; no
Cape Nome rush; no Oklahoma run-
ever brought about such conditions.
To begin with the throng fills Crockett
and Pearl streets so that the side-
walks are impassable and the middle
of the street affords the only
thoroughfare filled with men bent
on business. They are packed as
thickly as around hotel headquarters
at a presidential convention, but none
are here as mere onlookers as are
ninety per cent. of the usual conven-
tion throng. The intense earnest-
ness, the earnestness of men in the
pursuit of profit is the characteristic
seen on every hand. This makes it
well within reason to say that such
a gathering both as respects make-up
and attitude was never before seen in
the country.

Office Room Exhausted.

The intense pressure has made
many remarkable devices necessary
in a business way. Two months ago
Beaumont was a thrifty town of 8,000
people. The business facilities ade-
quate to such a place are now being
strained to accommodate the volume
of business usually done by a city of
100,000. Office room has long ago
been exhausted. Every office in town
shelters from two to four companies
and desks lined up along dark hall
ways show the headquarters of a host
of concerns of heavy capitalization
and high standing.

The current flows swiftest around
an old frame hotel which was more
than enough to accommodate all the
hotel traffic in Beaumont until this
year. The oil rush has over flow-
ed completely. People no longer re-
gister for rooms—they register a
week or ten days in advance for the
chance of getting a cot.

Lined With Brokers' Stands

Wherever a desk can be set, against
the wall of the office some real es-
tate or brokerage firm has its head-
quarters. The hotel stands, back
from the sidewalk about twenty feet
and this twenty foot strip has been
built up solidly with rough stalls
or boxes and each stall accommodates
from one to three firms who pay ex-
travagant rentals. The hotel plaza
is lined with brokers' stands; and a
shelf along the outside wall of the
Crosby Block furnishes desk room for
as many operators as can crowd in
shoulder to shoulder. The babel of
sounds about this "seat of war" is
vibrant with the thrill of heavy busi-
ness and out of it came such vocifer-
ous snatches as:

"Fifty acres in the C. Williams sur-
vey at \$200 an acre."

"I have two acres within 3,000 feet
of the Lucas gusher and \$15,000 is
the price. This deal is too good to
last. You can take it or leave it
right now."

"Maps of the oil field. Get your
maps and find out about your hold-
ings."

"Here is a lease on ten acres with-
in a mile of the famous Bullock league
Speak quick. It's the chance of a
life-time."

"I want five hundred shares in the
Basalt Rock Oil Co. at 65. Who has
it? Five hundred shares Basalt."

No Deliberation Possible.

All this at the top of far-reaching
voices. There is no time allowed for
deliberation in Beaumont today.

"How long do you give me to turn
over the cash on this?" asked one
man of another as they arranged a
\$20,000 transfer.

"Just five minutes," was the re-
sponse.

"But I can't count out the money
in that time."

"Well, hurry up. I'll give you the
time it takes to count the money."

The examination of titles during
the last ten days has been the barest
pretense. Most contracts allow for-
ty-eight hours for verification of ab-
stracts, but lawyers are days behind
their work, and deals of \$25,000 and
\$50,000 are closed on the bare as-
surance that half an hour's examination
showed no defects in title. So wild
has been the fever to buy, so eager
the desire to share in the pouring
forth of nature's wealth that sellers
forget the ordinary amenities of trade.
"Not one word now—I haven't time

to talk about it. Take it or leave it
just as it stands," is the curt admoni-
tion of the man who offers a tract
that may represent \$20,000.

Here and there a Beaumont man
of the older generation is found
among the active aggressive strangers
by whom 99 per cent of the oil busi-
ness is handled. The contrast be-
tween his deliberate southern cour-
tesy and the high nervous tension all
around him tells much as to the
changes that oil has brought in this
quiet hamlet.

The immensity of this Beaumont
oil strike has been told in fifty ways,
but however it is put, it must remain
as incomprehensible as are any ab-
stract figures dealing with millions
and billions. The fact that Beau-
mont bids fair within a year to pro-
duce more crude petroleum than all
the world beside gives some idea of
the immensity of the proposition. It
should be borne in mind that the
Beaumont formation is almost identi-
cal with that in the Baku fields from
which now flows one half of the crude
oil in the world.

The same parallel holds good as
to the extent of the flow. Now as to
the extent of the field. A man
standing on one of the Baku sand
heaps can see every inch of the Baku
field. As compared with this little
five mile plat of oil bearing land is
the Beaumont or Neches valley field
which reaches out in a more or less
defined stretch for 150 miles
and which is showing such oil gushers
as Baku has not surpassed. What the
annual production of a field like this
may be is past the powers of calcu-
lation. That it dazzles the buyer
is not surprising.

DROP HERRON'S NAME FROM CHURCH ROLL

The Grinnell Association Prepares the
Way for a Trial of the Ac-
cused Professor.

Baxter, Ia., May 1.—The Grinnell
Congregational association has taken
the first step toward the expulsion
of Professor George D. Herron from
the church and the ministry.

The form of action taken and the
unanimity shown by the members
makes it certain that Herron will be
expelled finally, after the formal steps
have been taken.

By its action the association drop-
ped Herron's name from the rolls of
membership of the church, and advised
the Grinnell church of which Herron
was a member to call a council
forthwith to deal with the Herron
case.

Heresies or religious opinions will
not enter into the trial or council.
The issues will be entirely on the per-
sonal, moral character of Herron.

EVANSVILLE CHURCH HOLDS A JUBILEE

The Congregationalists of the Rock
County Village Celebrate Their
Fiftieth Anniversary.

Evansville, Wis., May 1.—The ju-
bilee services of the Congregational
church here on the occasion of the fif-
tieth anniversary of its organization
were held yesterday and will be con-
tinued today. The pastor, the Rev.
Wallace M. Short, delivered the an-
niversary sermon on "The Value of
the Church to the Community."

Last evening services were held in
the church at which the Rev. H. A.
Miner of Madison spoke on "The Be-
ginning of Congregationalism in Wis-
consin," and the Rev. E. G. Updike,
also of Madison on the "Movements
of Theological Thought in the Half-
Century." This afternoon the mem-
bers will participate directly in the ce-
lebration and short talks on the his-
tory and reminiscences of the church
will be a part of the program. A
reception will be held in the even-
ing.

TEACHERS SCORE ON THE CORPORATIONS

Writ Granted in Illinois Compelling
State Board to List Franchises
For Taxation.

Springfield, Ill., May 1.—In the cir-
cuit court this morning Judge Thomp-
son handed down a decision granting
the writ asked for by the Chicago
school teachers compelling the board
of equalization to list for taxation
the franchises of twenty-three great
corporations of Chicago. The teach-
ers who suffered reductions in sal-
aries by reason of insufficient funds,
claimed the corporations had dodged
taxes aggregating thousands annually
and during the hearing allegations
were heard of a bribery in connection
therewith.

Morocco's Grand Vizier Imprisoned.

Washington, May 1.—Hadjikel
Molkar Ben Abdoullah Ben Hamed,
grand vizier of the court of Morocco,
has been thrown into prison and is in
danger of losing his head.

The official reason reported from
Tangier is that court intrigues have
influenced the sultan against him.

ALL CROPS ARE IN FINE CONDITION

Past Week Was the Most
Profitable One of the
Present Season.

WEATHER AIDS GROWTH

Corn Planting is Progressing
Rapidly in the Southern
and Western States.

WISCONSIN FARMERS BUSY

Washington, May 1.—Today's crop
report bulletin, issued by the weath-
er bureau, says that the week ending
April 29 has been by far the most fa-
vorable of the season, although the
first part was much too cool in the
Ohio Valley at least and in the east
gulf districts and on the North Pa-
cific coast. In the states of the Up-
per Mississippi and Missouri valleys
and over the eastern Rocky Mountain
slope ideal weather conditions prevail-
ed, the temperature being exception-
ally mild and highly favorable for
farming operations, germination and
growth.

Rapid progress has been made pre-
paring ground for corn planting in the
states of the central Mississippi and
Lower Missouri valleys, but this work
has been much delayed in the Ohio
valley and Middle Atlantic states.
Some corn has been planted in Illi-
nois and Nebraska; planting is gen-
eral in Missouri and Kansas, and will
begin this week in Iowa if favorable
conditions continue.

Throughout the Central and East
Gulf and South Atlantic states the
general condition of the corn is poor,
owing to unseasonably cool and wet
weather, and much replanting is nec-
essary in these districts.

Winter wheat continues generally
in a promising condition. Oklahoma
and Texas, however, continue to re-
port damage by insects and similar
reports are now received from South-
western Missouri.

Excepting high winds in the Dako-
tas during the latter part of the week
which uncovered in places and in
others deeply covered late sown
wheat, the conditions have been high-
ly favorable for seeding and ger-
mination.

Oat seeding continues late in por-
tions of the Middle Atlantic states,
but has made favorable progress in
other sections where not finished. The
reports respecting this crop are gen-
erally favorable. Insects continue in-
jurious in Oklahoma and Texas.

In Wisconsin the week was very
favorable for farm work; seeding
was about completed in southern and
central counties and some early sown
oats are up and looking well; no rain
during the week, so it is becoming
dry; pastures and meadow starting
slowly; winter wheat and rye in ex-
cellent condition; apple trees loaded
with buds.

WAR ENDED AT ILOILO APRIL 25

Washington, May 1.—MacArthur
this morning cables: "Quentin Sales
surrendered at Iloilo, April 25. All
organized opposition in that island is
ended."

Vote on Strike Question.

Paris, May 1.—A referendum, di-
rected by the French Miners' Federa-
tion, was held in all the coal basins
Sunday, the question being whether a
general strike should be declared in
support of the miners on strike at
Montceau-Les-Mines. Full returns
have not yet been received.

Rebel Against Rule of France.

Algiers, May 1.—The insurrection
against French authority in Algeria is
spreading and the insurgents are com-
mitting many outrages.
They are well armed and the resi-
dents of the region in which they are
operating are terror stricken.

Ship Laborers on Strike.

Quebec, May 1.—The Quebec ship
laborers are out on strike. The Great
Northern railway, which has a con-
tract with the Leyland line to ship
5,000,000 bushels of grain from Quebec
during the season, offered the men \$12
a week. The men refused.

To Drive Out British Invaders.

London, May 1.—Information from
Uromi, West Africa, is that the expedi-
tion under Major Heneker, which has
penetrated to the northeast of Benin
City and there seized an important
town, was being attacked in force.

Kidnapers Made Offer.

Omaha, May 1.—Edward Cudady
today verified the story that an agent
of the kidnapers of his son offered to
return \$21,000 of the ransom money
if the offer of a \$25,000 reward was
withdrawn.

ANNUAL MEETING OF Y. M. C. A. DR. LOOMIS ELECTED PRESIDENT

Reports Made Indicate That the Local Association Under Good Management Has Made Splendid Progress—Secretary and Treasurer's Reports

Members of the Young Men's Christian association held their annual meeting at the association building last evening and as a result of the election of officers, the management of the association has been again entrusted to the business men who have devoted so much of their time and energy to the success of the association in the past year.

S. B. Lewis, who reported for the nominating committee voiced the sentiment of the association when he complimented the gentlemen who have been so faithful in office and his remarks were endorsed by gentlemen who spoke later on the accepting of the committee's report. In moving that the secretary be instructed to cast the unanimous ballot for Dr. E. E. Loomis for president, H. J. Cunningham said that during the eight years of Dr. Loomis' service as president, there had not been more than a dozen meetings of the executive board when he had not been in the chair on time. By a unanimous vote the nominees recommended by the committee were endorsed by the association and the following officers elected:

The Officers Elected.

President—Dr. E. E. Loomis.
Vice President—F. F. Lewis.
Secretary—Archie Crawford.
Treasurer—W. G. Palmer.
Directors for one year—Edward Ruger and H. J. Cunningham.

Directors for two years—E. E. Dunwiddie, J. L. Bostwick, C. H. Kueck.
Directors for three years—W. E. Clinton, H. M. Hanson, A. E. Matheson.

Dr. E. E. Loomis presided at the meeting last evening which was attended not only by the members of the association but by the ladies of the Woman's Auxiliary.

After an opening prayer by Edward Ruger the various reports of the association work were given. Owing to a change in the time of holding the annual meeting the reports cover a period of eighteen months and show the association to be in a prosperous condition and on good financial basis.

Dr. Loomis in an informal report said that the work during the past year had been magnificent, the only loose cog in the association work being the physical director question. It seemed to be a hard problem to solve but the board was looking over the ground and hoped soon to find a man in every way fitted for the place.

Report of Secretary Matheson
A. E. Matheson, secretary of the board of directors, made a very complete and encouraging report. The report contains the following information:

The board held regular and special meetings during the year in the number of twenty-five. The total attendance at these meetings was 176, making an average attendance of 7.

The Board of Directors, under the leadership of Edward Ruger, the chairman of the Finance committee, have given considerable attention to the question of the annual income of the association. They have solicited continuing annual subscriptions, and have received a generous response from the citizens of Janesville.

In this way, the regular income of the Association has been increased in the sum of about six hundred five and no-100 (\$605.00) dollars. It is the desire of the board to have funds with which to increase the effectiveness of the physical department, to make more of the educational work in the Association, and, in other ways, to enlarge the work of the Association in our city. The additions to the building as dormitories have increased, in considerable measure, the expenses of the association. It is true that a revenue is derived from the rooms in the dormitories, but a portion of this income goes at present to pay six per cent. interest on the investment of the above mentioned additions to our building.

We cannot speak too highly of the work of the Ladies' Auxiliary. They have decorated the auditorium and other portions of the building, and, in other ways, have been very helpful. They have added much to the effectiveness of association work. We are very grateful to them for their interest, and gladly acknowledge our indebtedness for their help in many ways. Their work is much appreciated by the board, and we think by all who are interested in the Association.

A special attempt has been made this year to make more of the educational work in the association than ever before. There have been classes in book keeping, mechanical drawing, commercial law and penmanship, which have been very successful. The book-keeping class has been conducted by George Kimball, the mechanical drawing class by Mr. Hylerman, the commercial law class by M. P. Richardson and Jesse Earl, and the work in penmanship has been under the direction of W. J. Knight. We have had a male chorus, under the leadership of Professor Taylor, and Professor Gaskins has given much time to the work with a beginner's class in music. We feel that this educational work has not only afford-

ed means for the acquirement of knowledge in the subjects that have been taught, but has been of direct help in the spiritual work of the association. To all who have aided in this work, the directors desire to express their unqualified thanks and appreciation.

Enrollment of those who joined evening classes, sixty-five (65). Of this number forty-five (45) attended the classes regularly. The work in the educational department did not commence until January 1st of this year.

We have a large portion of the winter without a regular physical director. The directors appreciate that the absence of a competent physical instructor very much curtails the efficiency of association work. Much time has been given to the consideration of the physical department, and it is hoped that this may be carried on more successfully in the future. Through the efforts of Secretary Kline and a few gentlemen of the city, who he has interested, arrangements have been made for putting in new bowling alleys, of good quality and with proper requirements. This work is just commencing, and it is hoped that the bowling alleys will be in running order in a short time.

An entertainment course has been successfully carried on in connection with the other work of the association. Seven numbers were given, and the committee having the matter in charge have merited and received the thanks of the board for their efficient work in providing a course of superior quality of talent at a moderate charge.

Secretary Kline's Report.

In giving his report General Secretary J. C. Kline stated that the association had finished its seven years' service in the bonds of indebtedness and was just entering upon its second year of freedom from heavy debt. From an organization of limited scope it had come to be one of standing in the community. The association has a membership of 325 men, 147 active members and 178 associate. During the eighteen months 217 religious meetings have been held, the total attendance being 8,592. In giving the work done by the association, Mr. Kline covered much the same ground as the other reports had done but in speaking of the need of a physical director he said that the lack during the past year had been in a measure filled by the efficient volunteer service of Roy Palmer and one or two others of the young men.

Arthur Clark gave an informal report of the engagements filled by the Y. M. C. A. band and of the work done and said they hoped for a prosperous future although they had recently lost several of their best members.

The Woman's Auxiliary.

The report of Mrs. W. G. Palmer, secretary of the Woman's Auxiliary was greeted with applause. She told in a general way of the work which the auxiliary was doing in decorating the auditorium, refitting, refurnishing and caring for the dormitories, helping in social events and taking pleasure in doing what the ladies can in a quiet way to make the building attractive and homelike.

W. F. McCoy, who for fourteen years was actively engaged in association work, was called on and made a few interesting remarks. He spoke of the importance of the work being done by the ladies and urged the men to be awake to the large responsibilities of the work. Concentration, con-

secration and energy will accomplish mighty things and should be association watchwords.

After the business meeting there was a social which brought the gathering to an enjoyable close. Dainty refreshments were served by young ladies from a prettily decorated table at which Mrs. C. W. VanAkin and Mrs. C. D. Child presided.

Beloit Golf Club Party.

Invitations have been received by members of the Mississippi Golf club to the first annual dancing party of the Beloit Golf club. The invitations are handsome affairs, with a circle the size of golf balls cut from one of the pages which shows a newspaper clipping, headed a drive. Then comes the following: Owing to the poor condition of the "links" it is hinted that the first annual dancing party which the Beloit Golf club proposes to give, will be the "worst" of the season. A number from here are thinking of attending the party.

AMUSEMENT NOTES

In securing Stuart Robson, who will appear at the Grand opera house on Friday, May 3, in "She Stoops to Conquer," Manager Myers has made the most notable engagement of the theatrical season. There is no doubt that the distinguished comedian has achieved the greatest success of his career in Goldsmith's comedy, and the treat in store for local theater goers should not be neglected.

Associated with Mr. Robson this season is the most efficient supporting company on the road. Several of the members have been stars on their own account. The leading man is John E. Henshaw, who is in the very front rank of this country's light comedians. Miss Eleanor Barry, who plays Kate Hardcastle, in "She Stoops to Conquer," is an actress renowned for her beauty and artistic temperament. In this play she wears some elegant costumes which were specially designed for her by Worth of Paris. Other members of Mr. Robson's fine company are: H. A. Weaver, Sr.; Brinsley Shaw, O. E. Hallam, Clifford Leigh, Joseph P. Winter, Bert Washburn, Frank Robbins, M. R. Klein, James Grant, Miss Ellen Mortimer, Miss May Ten Broeck.

Prof. Gaskins Will Travel.

Prof. W. F. Gaskins has accepted a very fine position with the Prang Educational company of Chicago and New York for the months of July and August. As is well known the Prang Educational company is the leading institution of its kind in the world. It deals largely in art supplies for school work and Prof. Gaskins' duty will be to travel in the state of Ohio and explain the system which the company advocates as valuable in the education of children, to members of school boards. He will take no orders for goods but will simply bring the value of the work which is being done by the Prang Educational company to the people interested. The position is an excellent one and the fact that it has been proffered to Prof. Gaskins is a high compliment to his ability.

Visit From T. J. Salsman.

T. J. Salsman is home for one of his brief visits, and is registered at the Hotel Myers. His youngest son, Edward, who will be well remembered by his many friends here, is now a cavalry sergeant in the regular army in the Philippines. He enlisted against the wishes and indeed against the vigorous opposition of his father. When he first enlisted his father appealed to the secretary of war and had him rejected. Last December Mr. Salsman was taken very ill in Milwaukee and his children were summoned to his bedside. He grew better and a week or so later he received a telegram from his son Edward, saying he was in San Francisco, had enlisted once more, and was off for the Philippines. He has evidently acquitted himself with credit in the service for he has earned promotion.

Low Rates to California and Back This Summer.

An illustrated book, which will be of much interest to all who are expecting to take advantage of the low rates to California this summer, at the time of the Epworth League Convention, to be held in San Francisco in July, has just been issued by the Chicago & North-Western Railway. Much valuable information is given relating to the state, variable routes, etc. The rate via this line will be only \$50.00 for the round trip from Chicago, with corresponding low rates from other points. Copy of this book may be had free upon application to W. B. Kniskern, 22 Fifth Avenue, Chicago, Ill.

Half the ill that man is heir to comes from indigestion. Burdock Blood Bitters strengthens and tones the stomach; makes indigestion impossible.

MISS MAY BRETONNE WANTS A DIVORCE

The Actress Was Well Known by Many Janesville People—She Will Go Back on Stage.

May Bretonne, the clever little comedy actress who was so popular in repertoire work a few years ago, has brought suit for divorce from her husband, Frank M. Weinhold, of Milwaukee, alleging cruel treatment. The case is of especial interest to many local people to whom Miss Bretonne was known as a charming woman, socially as well as a talented actress. While she was best known for her work in repertoire companies, she was for some time leading lady in one of Frohman's companies and her last appearance in this city was with this company in "By Wits Outwitted." She is well known to play goers throughout the country.

It was while she was playing in one of the leading theaters in Chicago that she met Mr. Weinhold. They were boarding at the same hotel and a few months after the engagement in question the mutual attachment which sprang up between them resulted in their marriage, the ceremony being celebrated in Milwaukee about five years ago.

They made their home in Milwaukee, Mr. Weinhold being in the employ of the P. R. Buel Coal company. Later he purchased a laundry in Wauwatosa, and there the petite actress of former days worked with her husband early and late building up a good business which he later disposed of to become the credit man at the J. G. Flint Coffee and Spice Mills on West Water street. Upon the incorporation of the company last June he was made business manager and had control of the works.

After returning to the city from Wauwatosa Mr. Weinhold became a club man. He was a great favorite with the young man with whom he was thrown in contact, and became well known in business circles also, by reason of his position.

He is what the world would call a handsome man, and the sequence of this is alleged to be primarily the cause of the proceedings instituted by his wife for divorce.

Mrs. Weinhold is a native of Philadelphia, of Quaker antecedents, her maiden name being Edwards. Left an orphan a mere child, she began playing small parts in the theaters of her native city, and finally adopted the stage as a profession, appearing in lugenue and other roles. About three years ago she wrote a sketch which was put on at the Alhambra theater, entitled "The Only Way," in which Mr. Frederick Paulding played the leading role. It was but a single act, but it was the leading attraction of the week and was by request kept on a second week, being a decided success.

Mr. Weinhold resigned his position as manager of the Flint Coffee and Spice mills last Saturday, and it is said will not make a contest against the divorce.

Until the trouble arose which is being made the grounds for a separation they lived happily together. Mrs. Weinhold will return to the stage, and as soon as the legal separation is obtained will go to New York and seek an engagement.

For Over Fifty Years.

Mrs. WYNNE'S SOOTHING SYRUP has been used for children while teaching. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for diarrhoea. Twenty cents a bottle. Sold by druggists throughout the whole world.

A perusal of the subjects of Sunday sermons convinces us that the world is in need of some one to preach the gospel of Christ.

Fine Testimony.

to a thing of Merit

Mr. H. F. Nott, agent for the Hardman Piano, has received the following testimonial from one competent to know what a good piano is. It is with much satisfaction that Mr. Nott gives the public this testimonial:

Mr. H. F. Nott, Janesville, Wis., Dear Sir:—In 1874 my parents purchased a Concert Square Hardman Piano. This instrument is still in my possession, having been in constant use for own practice and in teaching during the past 20 years. It has never required repair and although in the early years we kept it frequently tuned it is now five years since it has been tuned and is in good condition, with clear, soft musical tone and good touch. I have known several Hardmans and have yet to see one which failed in quality or durability. Witnessing the Hardman every success, I remain its friend,

Line Linking Two Seas.
Chicago, May 1.—Chicago believes that arrangements have been made whereby the greatest transcontinental line yet formed is provided for in an understanding between the Pennsylvania and the Atchafalca, Topeka & Santa Fe Railroad companies. New York believes it, too. Both cities look for the election of Pennsylvania directors into the Atchafalca directory and a community of interest from Los Angeles and San Francisco to New York and Washington via Chicago.

ACTIVITY IN ROCK COUNTY REALTY; THE ADVANCE IN VALUES MARKED

No such activity as now exists has been known in Rock county real estate for over twenty years. The record of transfers; from March 22 to April 20, herewith given is the largest known in the history of the register of deeds office. The aggregate of these deals runs up into many thousands of dollars. A close inspection of the list reveals the fact that here is an appreciable rise in values, especially in farm properties. This is due to the improved business conditions and the prospects of better transportation facilities. In the cities and villages local improvements add to the value as exhibited in the record. The transfers are as follows:

Catherine Burns Condon to Joseph J. Leary lot 13, blk 20, Edgerton, \$250.
W. Bady to John H. "I'm Simply all Worn Out."

Overworked Women.

Fatigue is the natural result of hard work, but exhaustion results from weakness.

Hard work for a weak woman is traffic in flesh and blood.

It makes little difference what the field of work is, whether at home or elsewhere, if there is weakness, work brings exhaustion.

Ability to stand the strain of hard work is the privilege of the healthy and robust.

How our hearts ache for the sickly women that work for daily bread at some ill-paid factory employment!

How distressing also to see a woman struggling with her daily round of household duties, when her back and head are aching, and every new movement brings out a new pain!

If the mere looking on at these suffering women touches our hearts, how hopeless must life be to the women themselves!

Their devotion to duty is a heroism which a well person cannot understand.

Can these ailing, weak women, who are called upon to do work which would tire a strong man, be made to see that they can easily and surely better their condition?

Will not the volumes of letters from women made strong by Lydia E. Pinkham's Vegetable Compound, convince them of the virtues of this medicine?

How shall the FACT that it WILL HELP THEM be made plain?

When a medicine has been successful in more than a million cases, is it justice to yourself to say, without trying it, "I do not believe it would help me"?

Surely you cannot wish to remain weak and sick and discouraged, exhausted with each day's work. You have some derangement of the feminine organism, and Lydia E. Pinkham's Vegetable Compound will help you just as surely as it has others.

Read the letters from women in the opposite column of this paper, and when you go to your drug store to buy this sterling medicine, do not let yourself be persuaded to accept the druggist's own valueless preparation because it is a few cents cheaper than

Lydia E. Pinkham's Vegetable Compound.

\$5000 REWARD

Owing to the fact that some skeptical people have from time to time questioned the genuineness of the testimonials we are constantly publishing, we have deposited with the National City Bank of Lynn, Mass., \$5,000, which will be paid to any person who can show that the above testimonials are not genuine, or were published before obtaining the writers' special permission.—LYDIA E. PINKHAM MEDICINE CO., LYNN, MASS.

Evidence of Mrs. Pinkham's Cures.

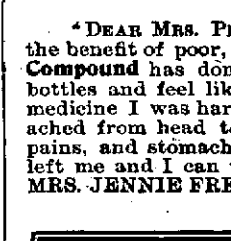

DEAR MRS. PINKHAM:—One year ago I read a letter in a paper telling how much good one woman had derived from Lydia E. Pinkham's Vegetable Compound. I had been sick all winter and was nearly discouraged, as the medicine the doctor gave me did me no good. I had kidney complaint, leucorrhoea, itching, bearing-down feeling, and painful menstruation. I wrote to you describing my trouble and soon received an answer telling me what to do. I followed your instructions, and have taken nine bottles of Vegetable Compound and used one package of Sanative Wash and one box of Liver Pills. I am well now, do not have those sick spells at the monthly period, but can work all day, and that I never could do until I began taking the Compound. I cannot praise the Compound too highly. I do hope every suffering woman will learn of your remedies and be cured as I have been. I wish all success to the Compound; it has done wonders for me and I am so thankful.—MRS. GENIE KELLOGG, Berlin Heights, Ohio.

DEAR MRS. PINKHAM:—I wish to let you know that Lydia E. Pinkham's Vegetable Compound has cured me of painful menstruation from which I suffered terribly. I really believe that I would be insane to-day if it had not been for your medicine. I cannot praise your Compound enough, and feel that if all who suffer from female troubles would put themselves under your care and follow your advice they will find relief.—MISS K. E. SCHOLTES, Mt. Oliver, Pittsburg, Pa.

DEAR MRS. PINKHAM:—For eight years I have suffered with inflammation of the womb and bladder, profuse and painful menstruation, and at times it seemed as though I should die. I doctored most of the time, but seemed to fail every year. A short time ago I began to take Lydia E. Pinkham's Vegetable Compound, and, thanks to your wonderful medicine, I am to-day a well woman. Your medicine is woman's best friend.—MRS. L. L. TOWNE, Littleton, N. H.

DEAR MRS. PINKHAM:—I write this letter for you to publish for the benefit of poor, suffering women. Lydia E. Pinkham's Vegetable Compound has done me a great deal of good. I have taken three bottles and feel like a new woman. When I began the use of your medicine I was hardly able to be up, could not do half a day's work, I ached from head to foot, was almost crazy, had those bearing-down pains, and stomach was out of order. Now all of these troubles have left me and I can work every day in the week and not feel tired.—MRS. JENNIE FREEMAN, 402 Pennsylvania Ave., Lima, Ohio.

DEAR MRS. PINKHAM:—I was sick for seven years without any relief, although treated by two of the very best doctors in this city. A few years ago I was nothing but a living skeleton. The doctor said my heart was the cause of all my sickness and that I could only be relieved, but never get well. Sometimes I would get so exhausted and short of breath that I would not know what to do. My nerves were very weak, blood impure. Was troubled with hands and feet swelling; also had leucorrhoea. I have taken six bottles of Lydia E. Pinkham's Vegetable Compound and feel well once more. I have gained twenty-seven pounds and am able to work all day in the store and do not feel tired when I get home at night. Words cannot express my gratitude to Mrs. Pinkham for what her medicine has done for me.—PETRA M. LOYA, care of L. Wolfson, San Antonio, Texas.

THE MAN WHO SAVES.

All sorts of combinations are being formed just now, and every day history records some new enterprise. Large blocks of capital unite in the interests of business, and labor organizations combine for mutual protection.

There has never been a time when money has been so plenty, or when labor, both skilled and unskilled, was in such universal demand. The tramp today, tramps from choice. If he is willing to work, he can find employment, in any part of the country, at good wages.

These good times, that will not always continue, are significant, and yet many men enjoy them without a sense of appreciation. They earn plenty of money, but it goes out faster than it comes in, and when a season of depression comes, and the labor market is overstocked, they will be without a dollar, complaining of hard times and hard luck.

If it were possible to organize a savings trust, and induce men generally to join it, and study habits of thrift and economy, for a year or two, it would be one of the best things that ever happened to the country. That kind of a combination would contribute more to the contentment and happiness of the masses, than any organization that was ever developed.

Talk to a man who has put his first hundred dollars in the bank and who is experiencing for the first time the feeling of manhood, that comes with a little effort to be independent. The world takes on a different aspect, and is not quite so cold and unsympathetic. New ambitions have been stirred that have long been dormant. The arguments of the labor agitator and malcontent are not so alluring, because the man has taken a step forward and joined the ranks of progress.

He soon discovers that the second hundred dollars was saved with less effort than the first, and when he has reached the first thousand, is financial success is assured, for by that time he has fully developed ability that wins success.

While it is not possible to organize a combination of this character, it is possible for every wage earner, as well as for every man in business, to cultivate individual thrift. And every man owes it to himself, in prosperous times, like the present, to do this.

It isn't a lack of earning or money making capacity, that keeps people poor, but it is a lack of ambition and determination to save. The wealthy man of today in this country came from the ranks of the poor boys of twenty-five years ago, with no better opportunities than surround the average young man of today. The daily papers are crowded with the record of what these men are doing, and with the history of their experience, from the foot of the ladder.

It ought to be an incentive to every young man in this land, for the opportunities of life were never so abundant as today. Ten years of hard, persistent, intelligent work, backed by a determination to save, will put any young man on his feet. The man who saves is the man who wins.

WAS THE COUNCIL HASTY?

The action of the council in granting the interurban street railway franchise, last Monday evening, is criticised to a greater or less extent, as hasty action.

It is claimed that the ordinance, as published for the last two weeks, was so amended, as to make the changes of vital importance, and that time should have been given to thoroughly digest the amendments, before the franchise was granted.

As The Gazette understands it, there was only one important amendment, and this was incorporating into the franchise, an ordinance passed by the city last January, applying to the Janesville Street Railway, or any other, that may be constructed, protecting all underground pipe service against damage from electrolysis.

This ordinance, at the time was adopted, a few months ago, was created for the express purpose of furnishing protection to private property and public safety.

If the ordinance furnished protection then, it should certainly be ample now. This the committee decided, after consulting the city attorney. If this is the only argument for delay, it will hardly seem sufficient.

The interurban line has been under discussion for a long time. Beloit has been the cause of endless annoyance, and Janesville was not in shape to act until the state line city had settled its dispute. The council, very naturally, felt that Janesville people had been given an abundance of time to file objections, if any existed. Popular sentiment favors the en-

terprise, and did not favor the dilatory tactics practiced by Beloit. The season for construction is well advanced, and the promoters of the road felt that every day meant something.

Public sentiment will endorse the prompt action of the council, unless there are good and sufficient reasons offered against it. If the city and private property is not properly protected against electrolysis, by the ordinance passed January 5th, and published in The Gazette last evening, the council is competent to pass one that is.

The aldermen have the interests of the city at heart, and would not knowingly grant a franchise that would be detrimental to any interests, either public or private. The spirit of progress and enterprise displayed will be generally commended.

Mrs. Carrie Nation is said to have lost her mind, and become a raving maniac. Her experience should be a warning to people of one idea, who exploit it at the expense of reason. There is only a step between this kind of lunacy and the full fledged lunatic. There are a good many people in this country who are close to the danger line. As a matter of self protection it pays to be conservative at all times. Mrs. Nation's intemperance has proven a costly luxury for her.

The disposition displayed by the assembly, to have an immigration board in the interests of the state, will be generally approved. While the people are conservative, and do not believe in extravagance, they do not believe in false economy. The state has ample room for double the population and a little money to encourage home seekers can be well invested. The entire state will be benefited.

There is no occasion for an extra session. The legislature might better continue till the first of June if necessary. The congressional apportionment can wait two years if need be, without detriment to the state. A congressman-at-large will make a good representative.

Uncle David Nation is said to have lost his pocket book and reputation at a saloon in Kansas, while Aunt Carrie is reported to have lost her reason in a jail at Wichita. The Nation family appears to be bordering on bankruptcy.

President McKinley has appointed two democrats to federal positions in the south. He recognizes the worth of McLaurin, a protectionist, and an expansion gold democrat who bids fair to become a leader in the reorganization of his party.

We expect our domestic Tagals will go on railing at the government for governing the Filipinos with their consent, as they have hitherto abused it for governing them without their consent.

President McKinley will find a host of friends on his 15,000 mile trip through the country. He is one of the few great men elected to the office of chief executive.

IN THE VALLEY OF THE SHADOW

Joseph Kelly, son of Mr. and Mrs. John Kelly of this city died at his home, 7434 West Superior street, Chicago yesterday. The deceased formerly resided in this city and at one time was employed by this paper. He leaves surviving him his parents and two sisters, Mrs. Kate Marshall and Mrs. Wm. T. Healey both of this city. The interment was held in Chicago this morning.

Mrs. Margaret Ehle. All that was mortal of the late Mrs. Margaret Ehle was tenderly laid at rest yesterday afternoon. The funeral service was held from the home of Mr. and Mrs. Millard Ide, 127 Glen street. The Rev. J. A. M. Richey officiated and made many touching remarks. The interment was at Oak Hill. The pall bearers were S. B. Clemons, Henry Rogers, Wm. Winkley and O. Baker.

Mrs. David Myers. The funeral of the late Mrs. David Myers was held this afternoon at 2:30 o'clock from the home of her daughter, Mrs. F. B. Stricker on East street. Rev. J. T. Henderson of the Presbyterian church officiated at the services which were attended by a large number of the friends of the deceased. The interment was at Oak Hill. The pall bearers were S. Hutchinson, R. J. Bostwick, Henry Rogers, John Stanton, S. C. Burnham and O. F. Nowlan.

Mrs. Charles Preller. The funeral of the late Mrs. Charles Preller will be held from the family residence on Milton avenue, Thursday afternoon at 2:30 o'clock. Rev.

J. T. Henderson will conduct the service at the house. The Daughters of Rebecca will have charge of the burial services.

Strike Herron's Name from Roll.

Baxter, Ia., May 1.—The Grinnell Congregational association has taken the first step toward the expulsion of Professor George D. Herron from the church and the ministry. The form of action taken and the unanimity shown by the members make it certain that Herron will be expelled finally, after the formal steps have been taken. By its action today the association dropped Herron's name from the rolls of membership of the church, and advised the Grinnell church of which Herron was a member to call a council forthwith to deal with the Herron case. Heresies or religious opinions will not enter into the trial or council. The issues will be entirely on the personal, moral character of Herron.

Privileges of Legislative Bodies.

Some of the privileges of members of foreign legislative bodies are unique. Danish M. P.'s can have a free seat in the Royal theater at Copenhagen whenever they like. The lawmakers of Norway receive free medical attention and nursing if they fall ill during the session. The M. P.'s have extended this privilege to include courses of gymnastics, massage, baths, wine and dental work, all gratis.

DOGS REALLY LOVE MUSIC.

Their Whining and Howling Are Signs of Enjoyment.

The old idea held by many that musical sounds are discordant to the ears of dogs and other animals is so easily disproven that there can scarcely be found the slightest apology for its persistent continuance. The fact that the ringing of church bells invariably causes every dog in a village to set up a howl has given rise to the deep-rooted fiction that the sound causes intense discomfort to the ear. Not only dogs, but other animals, show in no mistakable way their delight in the sound of musical instruments or other musical notes, whether from the throat of the church bell, the farm bell or from other similar sources. Robert Winkles, one of the most ardent lovers of dogs in Kent, who constantly keeps a large kennel of fox hounds, water dogs and diminutive pets, several years ago delighted visitors to his home with what he termed his "canine orchestra." Provided with an accordion, violin and several other instruments, the members of Mr. Winkles' household would commence an enlivening air in the dining room of his home. Immediately the dogs would crowd to the door of the kitchen and set up their whines of approval, or even delight. When admitted into the room they would crowd around the players and indulge in a most novel performance until either they were tired out or the musicians were forced to suspend playing from sheer exhaustion. Their whining was so solemn when some dragging air was played, but a veritable bedlam was reached when the quick "and devilish" strains of the "Fisher's Hornpipe" was played. That their sensations were those of pleasure and not of discomfort was unmistakably shown by the fact that they could scarcely be forced from the room so long as the music continued. There is reason, too, to believe that dogs, like human beings, are not all appealed to by exactly the same sounds. What will attract the notice of and call forth the deep bass solo of the mastiff or the Chesapeake bay water dog may not appeal to the household pet or the farmyard cur or foxhound, and vice versa.

Going to Build

Whether you contemplate building at an early date or not, you should have a copy of "BAKER'S TWENTY-ETH CENTURY HOMES" It is the most complete book of Architectural Designs published. Nearly 150 pages, printed on heavy enamel paper. It is not a theoretical book. Every design shown is from the actual working plans of buildings that have been erected under the direction of our supervising architect. Consequently it is practical in every respect. It embraces subjects from an attractive cottage at a few hundred dollars to a modern, up-to-date residence, costing many thousands of dollars. The perspectives are full-page illustrations while the floor plans are half-page sketches. The descriptions are complete and easily understood; in fact it is an ideal book of practical, up-to-date designs and intelligent descriptions. The regular price is \$2.50 but we would like to present you a copy free of charge. If you could call at our office we would take pleasure in presenting you a copy free of charge. As this is not possible, we will send you a copy by express, charges prepaid upon receipt of only 25c, to cover cost of transportation.

The Newest Modes

By Mate Leroy

Some women deserve a place in the list of inventors. A pretty little woman of my acquaintance wanted a new polka dotted silk dress and had not money enough to buy one. She had a black taffeta, but it was old and shiny in spots, and in spite of all her efforts it looked old and not fit for a nice frock. She took it apart and washed it as she would wash calico and ironed it, leaving it soft like surah. When this was done, she fastened all the pieces down to the table, and with a

AN EMPIRE DINNER GOWN.

brush and some yellow oil paint she made her polka dotted silk. The dots are just the right size, and they are half an inch apart. The dress is made with two narrow ruffles at the bottom, and the waist is trimmed with black lace applique, in which she has run a thread or so of yellow silk.

Speaking of polka dots reminds me that probably no other single design will be so popular this season as the polka dot, and it varies in size from that of a pin head to that of a quarter of a dollar. Some have two sizes in one design. For instance, there will be one large dot and a cluster of three small ones. This is a very pretty design and not so set and rigid as those in which the dots are all of one size. Another design which we all know well, but which is put forward as new this season in all the new tints and colors, is dots made of rings, white or red or some other contrasting color on a dark ground. Some have dark rings on a white or very light ground, and this is exceedingly neat and pretty. These designs are brought out in all of the new materials. Another way of utilizing the dots to make a new design is to have a curvy line all of dots of different sizes, the small one beginning at one end. The curvy line interlace, and the design is neat and pleasing.

White and black are so very stylish this season and show such a tendency to continue so all the year that no woman will make a mistake in getting her gowns of black and white. Shantung silks and laces are refined when the whole motive is a combination of black and white, but most of these show only the string or linen color. The same color is seen in all the lines of dress goods. Silk and linen waists are among the novelties. One style

DAINTY HOUSE DRESS OF ALBATROSS.

shows a bloused front with tucked yoke and Persian braid around the square of the yoke. Another line of the braid passes quite around the waist to the back, where it is fastened. The yoke is of the tucked linen, and the cuffs are of the same with the trimming over it. The sleeves are of a loose bishop shape. The stock collar is high and covered with the braid.

Waists of linen, silk, lanadowne, fine

annel, rumbunda, madras, swisses of all kinds and patterns, organdies, dimities and no end of taffetas tucked so closely that they become substantially another fabric are all seen. These, as a general rule, have the sleeves made in regular shirt sleeve pattern with cuffs, but the more dressy ones have some kind of undersleeve effect. This is called the Empress Eugenie sleeve. Long waisted effects are still to be the proper thing, and the corset houses vie with each other to find something new and more striking. Some of the pictures are simply ridiculous. They seem to cut the figure in two parts and set one six inches ahead of the other in a way which is absolutely impossible.

The tucked taffeta jacket is not entirely new, but it is to be one of the principal styles for this whole season. The whole jacket is finely and closely tucked, and then it is cut into the proper shape for a short jacket and finished exactly as are the cloth ones. Some of these are longer in front than in the back. Some have sharp points and others rounded ones, just like those of covert and cloth. These are edged in some cases with cable cord, and in others they are trimmed with lace, or some one of the fine braids. A few are open at the neck without collars, and then the next will have high collars with revers or with flap collar bands. All of these as well as the separate waists are calculated to display the beauties of the low corset.

Most of the fancy neckwear shows a tendency toward lower necked gowns, not such as are called evening dresses, but gowns with a decided V shape and square fronts. This particular style has always been called pompadour, and many of the dainty summer gowns will be made in these styles. They make it necessary to have little scarfs and fichus and other fancy lace or fine mull arrangements to throw over the neck when in the street, such as our great-grandmothers used in their young days. They are called berthes. There are also many kinds of Marie Antoinette fichus. It seems that the high choking collar is doomed.

We see in the most advanced houses the sure forerunners of the Empress Eugenie

A JAUNTY JACKET.

genie styles and are gravely told that aside from the hoops of one part of her time we shall certainly wear the bouffants and wide sleeves and in fact all the things belonging to that particular epoch, but here is an empire dinner gown which certainly belongs to the age of Josephine, and several other distinct styles, each having its rise during the reign of some other queen or empress, may be found. This particular gown is of cream peau de cygne, richly embroidered with gold and silver. The train is of blue velvet and has a trimming of gold and silver braid. It is lined with parma violet satin. Right after that we see a frock for a young lady made of albatross in the most delicate of tan, trimmed with lace and insets of white satin. The new arrangement of tucks is prettier than the bayadere stripes which go with the Eugenie styles. The neat and jaunty little jacket of shepherd's plaid, with its facing of black velvet and its flap collar, is much prettier than the long, shupeeless black taffeta coats with the roundabout trimming of black velvet ribbon. The jacket mentioned is part of a suit and is therefore doubly useful, as it can be worn with anything.

A Hog on the Track.

"Do you know the one thing of which a locomotive engineer is most afraid?" a well known railroad man asked a friend. "Nothing will ditch a train quicker than a hog on the track. An engineer will run through a whole herd of sheep and will even hit a cow or horse without thought of danger, but the sight of a hog between the rails makes his hair stand on end. I have never heard a scientific explanation of why a hog will throw an engine off the track nine times out of ten, but any railroad man will tell you it is so. As near as I can figure it out, being a short legged animal, the hog's body is closer to the ground than that of other animals and more apt to get beneath the engine, and then, too, there's something about the bulk of a hog that seems to lift the wheels of a locomotive right off the rails and slew them aside. Whatever may be the cause I know that a hog on the track will make for the moment a coward of the bravest man who ever held a locomotive throttle."—St. Louis Republic.

FRICK BUYS FARM LANDS.

Report That He Will Put Up Steel Plant in New Jersey.

Philadelphia, April 30.—The Inquirer says big purchases of farm land lying between Gloucester City and Mount Ephraim, in western New Jersey, not far from Philadelphia, have been made by George W. Jessup, a prominent real estate dealer and member of the Camden (N. J.) board of trade, during the last ten days. Twelve farms are reported to have been purchased during the early part of last week and three no later than Saturday. Mr. Jessup admitted making the purchase for H. C. Frick of Pittsburgh and his business associates. He said the farms bought on Saturday contained over 400 acres, but he declined to say how much the other purchases amounted to.

He refused to affirm or deny that the land is intended for the location of another steel plant. He would not say for what purpose it is intended, other than that of a business investment. He said there is \$50,000,000 behind the investors, and added that in a few years Camden will have a city adjoining it of from 30,000 to 50,000 inhabitants.

Oil Strike in Montana.

Helena, Mont., April 30.—Discovery of oil is reported on Butcher Creek, twenty miles west of Red Lodge, the county seat of Carbon county. The report is that a prospect hole sunk only a few feet deep yielded fifty barrels of petroleum in one day with an ordinary pump, and that in some places oil has been found oozing from the surface.

Chicago's New Police Chief.

Chicago, April 30.—In the selection of his cabinet the chief executive furnished two genuine surprises in Captain Francis O'Neill of the Woodlawn station for chief of police and Lawrence E. McGann for comptroller.

Buckets of Silver Dollars Bet.

Rear-Admiral Evans has always been fond of boat racing. He describes how he won a race while a junior officer on the Delaware stationed in China. The story is taken from "A Sailor's Log," published by the Appletons.

"Probably the most notable race we pulled was that in Wong-Kong, on the French Emperor's birthday. The French admiral was determined to take the championship away from us. I was convinced that we could beat them, and advised all our people to bet that way, which they did; and as the betting was at long odds on the French boat, many of us did not have to trouble the pay master for months. Six boats were entered—two French, two English, and two American—and the distance to be pulled was six miles, three miles away and a turn. I was lucky enough to draw the position next the starting boat, which insured my getting off promptly at the word. Next to me was the French barge, on which so much money had been bet. She certainly did look very fit and dangerous, but six miles is a long way, and I knew that I had the wind and muscle in my boat. The day before the race every man in the Delaware drew all the money that was due him, and bet it, of course. Deck buckets of silver dollars were taken on board the French flagship, sized up against theirs, and placed under guard. Everybody was betting, and all, except our crew, were backing the French boat to win.

At the turning buoy, we were thirty seconds ahead, and on the pull in we gained one minute.

WILL ERECT LARGE BRICK WAREHOUSE

JANESVILLE MACHINE COMPANY ACCEPTS PLANS.

Building Will Be Erected Immediately, on the Corner of South River and Pleasant Streets—It Will Cost About \$20,000 and Will Be 24x95 and Three Stories High.

The board of directors of the Janesville Machine company has accepted the plans for the large brick warehouse which is to be erected immediately on the corner of South River and Pleasant streets. The contract will be let within a few days and the work of clearing away the old frame buildings will be rushed.

The new warehouse will cost about \$20,000 and will be of white brick. It will be plain in architecture, without ornamentation beyond a brick cornice on the River street end.

The building will be 24 feet on Pleasant street by 95 feet on River street. It will include three stories and a basement, each floor being a large store room. The first floor will be in two sections between which the railway sidetrack will run. The second floor will be built over the car tracks. The building will be fire proof and iron shutters will be placed on the south side toward the shops.

The warehouse will be used for storage and for completed machinery. The prosperity of the Janesville Machine company and the rapid increase of work which is being done at its plant has made the new warehouse a necessity and also makes it important that it should be completed as speedily as possible.

WAITING ROOM AT OAK HILL CEMETERY

John Burke Signs the Contract to Build It and Work Will Be Pushed Fast As Possible.

John Burke, the successful bidder for the work on the new waiting room at the Oak Hill cemetery, signed the contract this afternoon and the work of erecting the building will be pushed as rapidly as possible. The contract calls for its completion by the 15th of June.

The waiting room is to be a very artistic frame building on stone foundation and will consist of one room 17x17 feet from which will be two toilet rooms with all modern equipment. The entire building is to be surrounded by an eight foot veranda and it will be a welcome addition to the cemetery which will be highly prized by visitors to the silent city.

The waiting room is to be located near the entrance to the cemetery, close to where the old tool house now stands. The five foot cement walk, which is being built from the highway to the cemetery entrance is nearly completed and having been built farther to the south than the old walk and between the double line of trees it makes a very pretty walk. The other cemetery improvements planned by the various committees are also well in hand.

Changes on the Northwestern.

W. H. Wheeler, formerly master mechanic in the Northwestern shops in this city, today entered upon the duties of assistant superintendent of the divisions between Fond du Lac and Green Bay, and between Princeton and Sheboygan. His headquarters will be at Oshkosh. James Cantillon, brother of Superintendent William Cantillon, a Janesville boy who has many friends in this city, is appointed trainmaster at Milwaukee.

Some changes have been made in Superintendent O'Brien's territory. The line between Rockford and Kenosha has been put under his charge, so that he is now looking after the line between Fond du Lac and Chicago and between Rockford and Kenosha.

FIGHT ON CLOSING OF HIGH STREET

It Looks As if Milwaukee Road Would Have to Look Elsewhere For a Depot Site.

It looks now as if the St. Paul road would not build its new passenger station at High street and the people up in that neighborhood will still have the pleasure of gazing on warehouses and coal sheds, instead of a handsome passenger station.

A strong fight is being made by the people in that part of the town against the closing of the street. Some of them were in favor of closing the street to traffic if the company would leave an eighteen foot opening for foot passengers, and build its platforms on a level with the tracks so as to make it an easy passage way. This was favorably received by the St. Paul company but when it was submitted to the Northwestern they absolutely refused to concur in this plan. They want the street closed entirely or not at all.

They claim that a narrow passage way increases the liability of foot passengers to be struck by the cars. There is one thing certain. The railroad company cannot erect a station such as they desire unless they can get the land. There is not space enough to stand a train between Jackson and High, or High and Academy.

As soon as the Janesville & South-eastern road is in operation, which will be the last of this month, there will be some heavy trains through here, and a long platform is absolutely necessary to take care of the passengers in any shape.

It is said by those who are in a position to know that Janesville will be the end of the division when the new line is opened and the most of the trains will be made up in this city. The company will build a large round house and shops during the summer, the exact location of which has not yet been established.

QUICK SERVICE, NEW CIRCUITS,

CHINESE ROBBERS BEHEADED

Nine Bandits Executed Under Orders by Peace Envoys.

DR. REID'S SEVERE POLICY.

He Says the Americans are Too Lenient in the Matter of Executions—Boxer Chief to Be Turned Over to Chinese Authorities.

Pekin, May 1.—Nine robbers who were caught in the section controlled by the American troops were beheaded yesterday. It was stated that this action was not taken by order of General Chaffee, but was inflicted by the Chinese board of punishments through instructions received from Li Hung Chang and Prince Ching, the peace envoys. A noted Boxer chief who made his headquarters in the American section, and who was guilty of killing or ordering to be killed nearly fifty persons, including an associate of the Rev. Gilbert Reid in the international institute, has also been transferred to the Chinese board of punishment to be dealt with, as General Chaffee, under orders from Washington, refused to order the death punishment. It is feared that in this case the Chinese plenipotentiaries will not order the beheading of the culprit unless pressed, as they are supposed to sympathize with the Boxers. Dr. Reid is seeking his execution by law, but says he is handicapped by the American policy. He says that the Americans should have declined to administer a section of Peking if they were not willing to mete out justice as determined by the international commission, on which the Americans have a representative.

French Arrive Too Late to Fight.

Berlin, May 1.—The Lokalanzeiger declares that the French did not cooperate with the Germans in the fight at the Shans pass, because the Germans advanced so rapidly that they arrived a day earlier than was expected. General Bailloud, the French commander, on arriving at Kukan later, recognized without reserve the splendid marching of the Germans. It is stated by officials here that the main German expeditionary force in China is now withdrawing to its former position, leaving a garrison at the pass at the great wall. Further expeditions are not projected and will only be undertaken should the Chinese make them necessary. In official circles it is believed that General Liu acted upon his own initiative, or, perhaps, at the suggestion of some anti-foreign mandarin, officials not believing that the Chinese government ordered General Liu to resist the Germans, since such action is plainly against the government's interests.

Make Fortune in Oil Deal.

Paxton, Ill., May 1.—J. C. McClure and J. H. Collier of Gibson City and W. A. Cameron of Elliott have completed a deal on oil lands near Beaumont, Tex. They purchased 5,000 acres at \$5 per acre and sold a day or two since 1,250 acres at \$150 per acre, or a total of \$314,625. The sale was made to the Standard Oil company. They believe the remaining 3,750 acres which they purchased worth an equal amount per acre and hold them at about \$1,000,000.

PLANNED TO FREE KETCHUM.

William Wilson Tells of Plot to Save Man Executed in New Mexico. Denver, Col., May 1.—A special to the Republican from Santa Fe, N. M., says it developed at the hearing of William Wilson, charged with furnishing Convict George Stevenson with the revolver used by him in the recent attempted delivery at the penitentiary, that the plan was to secure the release of Tom Ketchum, who was executed last Friday, and "Broncho Bill" Carver, a member of his gang. Wilson confessed his guilt and said Carver's sister offered him \$500 to smuggle the pistol into the prison. The plans were so carefully laid that only for the bravery and good marksmanship of the prison officials "Black Jack" and a score of other desperate characters would have regained their liberty. Wilson was held under \$2,000 bail.

Saves Baby; Loses Life.

Athens, Ga., May 1.—While their horse was running away Claude Husey told his young wife to jump for her life and leave the baby to him. She refused to leave the baby behind, so, clasping the little one tightly to protect it from harm, she leaped from the swaying pony to the road, fell squarely on her head and died instantly.

The baby was unhurt.

HIGH SCHOOL ALUMNI

Annual Reception and Banquet to the Graduating Class on Friday Evening, June 7.

Miss Abbie Atwood, president of the Alumni association of the Janesville high school has appointed her committees for the arrangement of the annual reception at which the members of the graduating class will be the guests of honor. The reception this year will be in the nature of a banquet to be followed by a program of toasts and a reunion of classes. Owing to the fact that Supt. Mayne practically severs his official connection with the school together with the outgoing class, extra effort will be made to have the occasion on especially happy and memorable one. The reception will be held Friday evening, June 7 in the gymnasium of the high school building.

Owing to the fact that much convenience is always caused by dues coming in late, special committees have been appointed by the various classes to urge the prompt payment of dues to the treasurer, S. C. Burnham and to secure as many new members to the association as possible.

The committees which will have charge of the arrangements for the reception are as follows:

Banquet Committee—Mrs. Frank Reynolds, chairman; Edith Dilzer, Jessie Spellman, Nellie Dudley, Will Dougherty, Josephine Farnsworth, Fred Sutherland.

Program committee—Mrs. Otis H. Brand, chairman; Mrs. Chas. Fifield, Mrs. Harry McNamara.

Decorating committee—Joseph Van Kirk, chairman; Mrs. Waddle, Mrs. Ed. Spaulding, Thomas Hogan, George Farmer, Rette Whitton.

Kills His Brother-in-Law.

Chattanooga, Tenn., May 1.—William Ramsey, a cripple, shot and killed his brother-in-law, Madison F. Amos, a truck farmer, because the latter refused to take a drink with him. Ramsey was intoxicated and used an old Enfield rifle. The bullet passed through Amos' body and fatally injured an infant in the arms of Mrs. Amos, who was in the room at the time.

Northern Wisconsin Railway Farm Lands for Sale.

The Northwestern line has for sale in northern Wisconsin, at low prices, and easy terms of payment, about 350,000 acres of choice farm lands.

Early buyers will secure the advantage of locations on the many beautiful streams and lakes, which abound with fish and furnish a never ending and most excellent water supply, both for family use and for stock.

Land is generally well timbered, soil fertile and easy of cultivation, and this is rapidly developing into one of the greatest sheep and cattle raising regions in the northwest.

Chicago, Milwaukee, St. Paul, Minneapolis, Duluth, Superior, Ashland and other towns on "The Northwestern line" furnish good markets for stock and farm produce. For further particulars address Geo. W. Bell, Land Commissioner, Hudson, Wis., or G. H. MacRae, Assistant General Passenger Agent, St. Paul, Minn.

TWO LITTLE YAM YUM

Japanese Maidens Who Are Attending an American College.

Two little Japanese girls who are obtaining their education at Hiram college, Ohio, are decidedly interesting specimens of their race, for we see few Japanese women in this country.

The Misses Kumi Sato and Yao Tanada were brought to this country a year and a half ago. They are about 21 years of age. Their intention is to become physicians and medical missionaries in their native land, for there is crying need of native women doctors in Japan. To that end the two little Japanese intended to take up the study of medicine immediately upon their arrival, but to their intense disappointment their limited knowledge of English made this impossible. The

MISS KUMI SATO.

Misses Kumi and Yao were sent to Hiram college to perfect themselves in our language.

Our interesting visitors are studying English, Latin, English grammar, general history and arithmetic. They are making rapid progress, and, according to their instructors, their work is above the average. The girls are general favorites among their schoolmates. They were at first very homesick, which feeling was intensified by the death of the mother of one of them, but they have recovered and take great interest in things American.
